

SUMMARY

Mobile Software Engineer with 5+ years of experience delivering 15+ production-grade Flutter and native Android (Kotlin, Jetpack Compose) applications across mobile, web, and desktop platforms for markets across Egypt and the GCC. Specialized in ERP, POS, e-commerce, booking, delivery, and government solutions, with strong expertise in modern development practices. Experienced integrating REST APIs, Firebase, payment gateways, and building scalable, testable, high-performance products.

SKILLS

- **Mobile & Cross-Platform Development:** Flutter, Android (Kotlin), iOS, Web & Desktop Development.
- **UI & State Management:** Jetpack Compose, Provider, Bloc, Cubit, GetX
- **Android Native:** Coroutines, StateFlow, Room, Retrofit, Hilt, Android Jetpack, ViewModel, Navigation Compose.
- **Integrations & Services:** REST API, Firebase, Notifications, Google Maps, Payment, SQL and Hive.
- **Architecture & Principles:** Clean Architecture, MVVM, SOLID Principles, Design Patterns, Data Structures, OOP, TDD.
- **Testing & Debugging:** Unit Testing (mocktail, Bloc Test), Widget and Integration Testing, Flutter DevTools.
- **Tools & DevOps:** Git, CI/CD, Fastlane, GitHub Actions, Shorebird, Firebase Analytics, Figma, Sketch.
- **AI-Assisted Development:** GitHub Copilot, Claude, kimi, ChatGPT, Gemini (coding, debugging, testing).

WORK EXPERIENCE

Tania Water - Mobile Software Engineer Jun 2026 - Present

- Developing and maintaining native Android (Kotlin) and iOS applications, improving performance and stability
- Led collaboration with a third-party team to integrate a delivery management system, improving efficiency.
- Worked closely with stakeholders and product teams to ship new features, keeping the app competitive.

DGTERA - Senior Mobile Developer Aug 2025 – Jun 2026

- Architected and developed the official Saudi Shura Council government application using Clean Architecture and Clean Code principles, delivering high maintainability, performance, and a seamless UI/UX..
- Led the full refactoring of the Dgtera Admin & HR apps and reduced apps load time by 40% through optimizing API calls and implementing efficient caching strategies and app size by 20%.
- Wrote unit, widget, and integration tests to validate business logic and UI behavior.
- Integrated secure communication and scalability best practices using IBM WBC services.
- Contributed to the Dgtera POS/KDS/Kiosk/Waiter system across mobile and desktop platforms, focusing on a seamless, intuitive user experience.

DGTERA - Mobile Developer Mar 2024 - Aug 2025

- Designed and implemented application architecture and Flutter development best practices, writing clean, maintainable, and efficient Dart code across the product line.
- Configured Flutter build flavors to separate Dev, Staging, and Production environments, streamlining testing and release workflows across multiple apps
- Contributed to the development of Al Rajhi Food and Al Rajhi Driver, ensuring a smooth user experience.
- Identified and resolved performance bottlenecks and bugs, optimizing Flutter applications for speed and scalability.
- Refactored 2,000+ lines of code, resulting in 30% improved app performance
- Collaborated with cross-functional teams to define and design new features.

Smart Sol - Flutter Developer

Sep 2023 - Mar 2024

- Built high-performance Flutter apps for mobile and web with adaptive, responsive UI across multiple devices.
- Integrated payment gateway -(KNET)- into the applications to facilitate secure transactions.
- Developed an e-commerce system with Kitchen, Client, and Delivery modules, optimizing the order workflow.
- Successfully deployed applications across the App Store, Google Play and Hostinger-hosted web environments

Freelancer - Flutter Developer

Jul 2022 - Sep 2023

- Developed advanced mobile solutions from scratch, translating business requirements into efficient applications.
- Developed a booking platform enabling users to schedule, manage, and track reservations.
- Created a dedicated NFC-based application enabling seamless data transfer between devices.

Hash studio - Flutter Developer

Jul 2021 - Jul 2022

- Developed 5 apps (4 mobile + 1 desktop) using the Clean Architecture pattern to ensure long-term maintainability.
- Conducted code reviews and debugging to identify and resolve errors.
- Integrated the Zoom SDK to add live video-conferencing functionality.
- Collaborated with the development team to ensure components met functional and design requirements.
- Published apps on App Store and Google Play

PROJECTS

- **Smart Patrol:** Official government app deployed in UAE and KSA patrol systems.
- **Shura Council:** Developed the official Saudi Shura Council app with enhanced design and secure architecture.
- **DGTERA System:** Adaptive System (POS, KDS, Kiosk and Waiter) works on mobile and desktop.
- **DGTERA Admin:** App for monitoring branch sales, balances, and profits periodically. [App Store](#) [Google Play](#)
- **DGTERA HR:** Dgtera is an easy-to-use, feature-rich, customizable HR App. [App Store](#) [Google Play](#)
- **Zadkom(3 apps):** Maintained the Apps and adding payment features . [Website](#) [App Store](#) [Google Play](#)
- **Nartaqi:** Strengthened skills in clean code, testing, design patterns, and data structures. [Google Play](#) [App Store](#)
- **Al Rajhi Food :** App for a company specializing in the food industry . [App store](#) [Google Play](#)
- **Al Rajhi Driver:** Driver application for managing food deliveries from restaurants. [App Store](#) [Google Play](#)
- **Tapi:** Share social media, contacts, files seamlessly with NFC Tag. [Google Play](#) [App Store](#)
- **Elite Homes:** Enabled seamless property transactions, including rentals, purchases. [Google Play](#) [App store](#)
- **Feedbacky:** E-commerce app for product discovery, feedback, and rating. [Google Play](#)
- **Touring:** App for booking activities across SA with secure payments and booking management. [Google Play](#)

EDUCATION

Bachelor's Degree in Mathematics and Computer Science
Menofia University, September 2021
